

"Biff Buster"

Pipe Guards

Heavy duty pipe protection

Roofing & Sheetmetal Centre's Heavy Duty "Biff Buster" Pipe Guards are made of tough galvanised steel, perfect for preventing damage to downpipes, fire safety equipment, electrical and other services. Useful in areas where vehicles operate including:

- commercial car parks
- factories, workshops and garages
- loading docks
- distribution centres

Product features

- Standard product dimensions - 600mm height x 178mm width x 175mm depth (will fit 150mm PVC pipe)
- Material - 3mm powdercoated galvanised steel for high strength
- Colour - choose from unpainted, high visibility safety yellow, or powdercoated to your specified colour
- Pre-punched 10mm holes for easy mounting
- Supplied with 4 x M10 Dyna Bolts for installation
- Option to include reflective tape to improve night visibility
