

Gutter Guards

Increase the lifespan of your gutters

Protecting gutters from debris build up saves your customer time and money, and prevents the need for gutter repairs. We offer a range of gutter protection products, so why not make gutter protection part of your plumbing solution.

- ▶ Save time on ongoing maintenance by reducing the chance of gutters becoming blocked
- ▶ Avoid water damage caused by blocked gutters
- ▶ Improve tank water quality by reducing potential for contamination

Gutter guard product specifications:

Our standard gutter guards are made to the following specifications (however customisation is possible):

- ▶ Made from Australian steel
- ▶ Available in 1200mm lengths
- ▶ Widths available: 300mm, 480mm & 560mm
- ▶ Punched in 10mm square, 30mm x 5mm or 10mm radius

Ask us about other materials including stainless steel, copper or aluminium.
